### This Month's Speaker

Ron Miller and Jack Whitmire of DoorKing (for A&D Automatic Gate) will be presenting and sponsoring the December ASIS lunch meeting.

DKS DoorKing is a leading manufacturer of gate and parking barrier operators, building access and telephone entry systems. Headquartered in Inglewood, California, DoorKing prides itself on the fact that the products are made in the USA. Family owned since 1948, DoorKing works closely with dealers to design the optimal system to fit the end users needs.

This seminar will present an overview of vehicular traffic control and security solutions to meet some unique requirements, such as sally port designs, anti-tailgating techniques and high speed industrial gate applications. We will discuss areas to consider when looking at these design concepts. This presentation will also provide a brief review of UL325 and ASTM F2200 safeguarding standards for vehicular gate systems, as required under the Las Vegas fire codes.

## Committee Chairs

We need reports from each of the committee on their activities. Each committee has a specific area of responsibility. We need to know what you have achieved in the first half 2008 and what activities you have planned for the remainder of the year. There are several committees that have not yet responded this year. Let's meet our obligations.
